TORTURED UNTIL DEAD. TRAINS COME TOGETHER

Terrible Accusation Religious Fanatics Must Answer.

Passenger and Freight Collide With Awful Result.

CRIPPLE WOMAN IS VICTIM

DEAD PUT AT THIRTY-TWO

Laboring Under the Delusion That an Aged Lady Was Possessed of an Evil Spirit, Her Two Children and Others Try to Drive the Devil Away.

Disaster, Said to Have Been Caused by Disregard of Orders, Was Truly Terrible, the Locomotives and Some Coaches Being Demolished.

Chicago, Sept. 20.—Five people, members of the sect of Parahemites, are under arrest at Zion City. They are accused of torturing to death Mrs. Letitia Greenhullagh, forty-four years old, a cripple for twenty years, to show their belief in the religion they profess. The people under arrest, Walter and Letitia Greenhullagh, forty-four years old, the dead woman; Harold Mitchell, Mrs. Harold Mitchell and Mrs. Smith. All of them are accused of manslaughter.

The condition of Mrs. Greenhullagh convinced her son and daughter and the three persons arrested with them that she must be possessed with a devil and they determined to drive out the evil spirit. Five knelt by her bedside and after praying commenced their work. The arms of Mrs. Greenhullagh, stiffened by rheumatism, were twisted about in order that the devil might be driven out. The cries of the aged woman were considered to be those of the evil spirit and were greeted with triumphant shouts. After this violent treatment, Mrs. Greenhullagh, not only became so weak she could not use her limbs, but became incapable of making any motions. Then her neck was twisted and for some time this treatment was kept up.

City of Mexico, Sept. 20.—There has been a disastrous wreck on the Mexican Central railroad. A freight train and passenger train came in collision at Encarnacion, near Aguas Calientes. The passenger train was the regular El Paso express.

Authentic reports received here say that thirty-two persons were killed and thirty-three sustained injuries. There are no prominent persons killed or wounded. The Pullman cars were not badly damaged, but the two engines and several first, second and third class coaches of the passenger train were demolished. Relief and wrecking trains were sent to the scene of the wreck. The injured are being taken to the hospital at Aguas Calientes. The disaster is said to have been due to a disregard of train orders.

CAMPS IN LOUISIANA.

President Expects to Have an Outing in October.

Oyster Bay, Sept. 20.—For from the scene of official routine and free from the details attendant upon the responsibilities associated with the office of chief executive President Roosevelt will enjoy seventeen days in camp. This is to be the nearest approach to a genuine vacation that the president has allowed himself. Though nominally on his vacation at Oyster Bay this summer there have been but few hours in which official business has not intruded.

A physical and mental recreation as complete as his cares will permit is now arranged. President Roosevelt will pitch his camp in the northeastern corner of Louisiana on or about Oct. 5. The exact spot is yet to be determined. The plans provide for a camping trip, but every one who knows northeastern Louisiana knows that the canebrakes shelter game worthy of a huntsman of presidential caliber. Those who have the good fortune to make pleasant the president's camp expect that the monotony of camp life will occasionally be broken by a hunt.

While the details of the trip have not been thoroughly worked out, the main features were announced by Secretary Loeb Thursday. The president will leave Oyster Bay for Washington next Wednesday, and on the following Sunday will start on his western and southern speech making tour. The president will be the guest while in camp of Civil Service Commissioner McElhinney of New Iberia and John M. Parker of New Orleans. Following the speech at Vicksburg Oct. 21 the president has consented to make an address at the Hermitage, Nashville, on the following day.

FAILED TO PAY FINE.

In Consequence, Mrs. Nation Is Inmate of Washington Workhouse.

Washington, Sept. 20.—In the police court Mrs. Carry A. Nation refused to promise not to talk on the streets in the future, and was sent to the workhouse for seventy-five days in default of the payment of a fine of \$25. She was arrested on a charge of disorderly conduct.

FINAL FIGURES.

New State Has Over One Million Four Hundred Thousand People.

Washington, Sept. 20.—Director North of the census bureau has been advised by census enumerators in Oklahoma that the final figures for the new state shows a population of 1,414,042. Oklahoma has 721,141 inhabitants and Indian Territory has 692,901.

Wheat Passes Dollar Mark.

Chicago, Sept. 20.—Wheat for December delivery passed the dollar mark Thursday and sold at \$1.00 1-4. The advance was caused by a lively export demand and fresh reports of damage in Western Canada. At the close the price of December showed a net gain of 1 cent compared with the final quotations of Wednesday. Minneapolis, Duluth and Chicago reported receipts of 498 cars, against 443 cars last week and 523 a year ago.

Merely an Acquaintance.

Chicago, Sept. 20.—Miss Hilda Natally, who is said by the defense in the Constantine murder trial to have been the cause of Mrs. Gentry's suicide through jealousy of the attentions paid to her by Constantine, was on the witness stand. She denied that Constantine ever spoke to her of love affairs, and said that he merely was an acquaintance.

CHECKS IN COURT.

These Had Been Charged to "Special Construction Accounts."

New York, Sept. 20.—Inquiry by the public service commission into the affairs of the Interborough Metropolitan company was enlivened by the introduction of the cancelled checks which were paid to L. E. Quigg, the politician, and Eugene Ellsworth in 1902 by the Metropolitan Street Railway company. These checks had been charged to "special construction." Subsequently William M. Ivens, counsel for the commission in the investigation, sought to learn from D. C. Moorehead, treasurer of the New York City Railway company, what services Mr. Quigg rendered the Metropolitan, but he was not successful.

The checks were placed in evidence in the examination of Marvin Sudder, an accountant employed by the commission, who had looked into the Metropolitan's "construction account." One check was drawn to Eugene Ellsworth on Oct. 20, 1902, for \$1,875. The checks given to Quigg were as follows: Oct. 5, 1902, \$1,000; Nov. 23, 1902, \$1,000, and Dec. 23, 1902, \$1,500. All were signed "Moorehead, Treasurer," and drawn on the Chase National bank. They had been endorsed by payee.

LEAPS FROM WINDOW.

Girl First Tried to Suicide With Illuminating Gas.

New York, Sept. 20.—Surprised by her mother in an effort to commit suicide by inhaling illuminating gas through a rubber tube, Theresa Canting, a young telephone operator, threw herself out of a window Friday near which she was standing and fell four stories to her death.

Miss Canting was drawing into her lungs fumes from a gas jet in her bedroom when her mother opened the door. At the sight of her mother the girl leaped from the window. A quarrel with her sweetheart is said to be the cause for the rash act.

SUES FOR LARGE SUM.

About Seven Hundred and Fifty Thousand Dollars Involved.

Cleveland, Sept. 20.—Sue for about \$750,000, principal and interest, is on trial before Federal Judge Taylor, in which James Compton of Washington is the plaintiff and the Wabash Railroad company the defendant. Compton alleges that prior to the civil war he bought part of what is now the Wabash system and sues for principal and interest for period covering half a century.

Hon. Judson Harmon of Cincinnati, attorney general in President Cleveland's cabinet, appears as counsel for Compton in the case. The railroad through all the years of litigation maintained that it paid 6 per cent interest on two mortgages given years ago. Compton is now nearing seventy-five years of age.

One Killed and Twenty Injured.

Cleveland, Sept. 20.—According to information received here at the headquarters of the Lake Erie Electric Railway company the conductor and one passenger were killed and a score of passengers more or less seriously hurt when a westbound suburban car struck an open switch and was ditched near Toledo.

FANCY GROCERIES

The Daily Eagle

Entered at the Postoffice in Bryan, Texas, as second class matter.

BY CARNES & WALLACE

BRYAN, TEXAS, SEPT 21, 1907

The republicans and the breweries say they will contest the Oklahoma election.

A burning buggy bowling along the street astonished the people of Rockdale last Saturday.

There is difference between the kicker and the knocker. The former is a necessary evil, the latter an unmitigated nuisance.

Some farmers refuse to take less than 15 cents for cotton. If there were enough such the 15 cents would be forth coming; but are there?

Henry Watterson thinks "the proposal to Mexicanize the government by keeping Roosevelt in the White House would shatter the republican party."

It takes more than talk to build side walks. The Bryan papers have been preaching for years and would like to see the practice begin in earnest.

As an offset to the solemnity of political funerals next year the American Association of Press Humorists will hold its next annual meeting in Houston.

"Ambition's ladder is Will," says the Houston Chronicle. Candidates for appointment under the next administration are anxious to know which Will, Bryan or Taft.

President James of Illinois University wants a national convention called to revise the constitution. What's the use? If the Roosevelt regime is to be continued a constitution is superfluous.

If the lakes-to-the-gulf waterway scheme ever becomes a reality the old proverb, "you can't make a river flow upstream," will be disproven. The course of the Chicago river will be reversed.

American tourists are beginning to find out that London shop keepers have been charging them double what home people pay for goods. Plucking the goose that laid the golden egg, as it were.

According to a report of the interstate commerce commission the railroad trackage of the United States is 224,363.17 miles, which is nearly equal to the circumference of the earth at the equator.

Ex-Senator Carmack of Tennessee was "the original Parker man" in 1901, and is

PANHANDLE PROSPEROUS.

Resident of Childress Says All Is Well Up There.

Austin, Sept. 20.—T. L. Crews, a well known civil engineer of Childress, was here on business with the general land office and the attorney general's department. Mr. Childress said that conditions in the Panhandle were in a prosperous condition, notwithstanding the dry weather which has prevailed to a considerable expense in some parts of that part of the state. He said that the farmers of Childress county would make on an average of one-half bale of cotton to the acre, which is considered a good crop when other parts of the state are taken into comparison. Mr. Crews said that his section of the state is developing at quite a wonderful rate, and land values continue to increase. He asserted that the ranchmen are selling their ranches and the vast acres are being subdivided into smaller tracts and sold as farms, and the owners of these ranches are getting an exceedingly good price for their holdings. He said that many farmers from other sections of the state are coming to the Panhandle to get away from the boll weevil and other insects, which abound in less favored localities.

The governor has signed forty-nine land patents, embracing lands situated in the following counties: Andrews, Gaines and Martin counties, 13,284 acres; Archer, 640 acres; Brewster, 1920 acres; Comanche, 160 acres; Colorado, 640 acres; Dimmitt, 934 acres; Harrison, 227 acres; Hamilton, 80 acres; Hale, 320 acres; Jones, 320 acres; Kinney, 320 acres; Lipscomb, 645 acres; Live Oak, 1280 acres; Martin, 8,856 acres; Midland, 2,160 acres; McCulloch, 165 acres; Navarro, 42 acres; Pecos, 240 acres; Potter and Randall, 640 acres; Sherman, 320 acres; Shackelford, 291 acres; Wharton, 57 acres; Wilbarger, 955 acres; Young, 150 acres.

ACTION BROUGHT.

Result of Runaway Circus Team During Austin Parade.

Austin, Sept. 20.—As a result of the runaway of a team of the Sells-Floto shows here during the parade, suit for damages has been filed by Mrs. Chas. Thelle, who claims to have been bruised and her vehicle demolished. She sues for \$1,860.

The railroad commission issued notice of hearing for Oct. 8 on question of reciprocal demurrage on Texas lines in accordance with act of the Thirtieth legislature.

In answer to an inquiry from the comptroller, the attorney general holds that expenditure of money over and above specific appropriations is unauthorized and warrants for same cannot be issued by the comptroller. The question came up over the action of Fish and Oyster Commissioner Wood in paying \$1,150 for aboat to be used in the oyster business. The legislature appropriated \$1,000 for the purchase of the boat, and under the ruling of attorney general warrants for only that amount can be issued.

Attorney General Davidson is at work on his reply to President Chupp of Dallas Telegrapher's union regarding the telegraphers' strike. General Davidson says that this is a question which has to be carefully considered, and he is giving it such attention.

ALMOST WHITE HEAT.

Confiscated Liquor Taken by Place of Pro Meeting.

Sherman, Tex., Sept. 20.—Local option campaign has almost got to a white heat stage here. While a pro meeting was in progress Sheriff Rich passed by with 2,423 bottles of beer and 122 pints of whisky taken from two joints under the search and seizure law. Rev. J. M. Binkley, a resident of Sherman fifty-two years, denounced the county attorney's office, alleging it was not co-operating with the sheriff's department in an effort to enforce the prohibition law.

SPEEDY HORSE DYING.

Stone Bruised a Leg and Blood Poisoning Set In.

New York, Sept. 20.—Roseben, the peerless sprinter among the thoroughbreds of America, is dying, it is feared, from blood poisoning. David Johnson, his owner, and Frank Weir, his trainer, have slight hopes of his recovery. The champion's illness is due to a stone bruise. During his race over Sheephead Bay track, which he won easily, he picked up a stone and this cut and bruised one of his legs so badly that the injured member began to swell.

Pecans Falling From Trees.

Burnet, Tex., Sept. 20.—Parties living on the creeks in this section report that the pecans are falling from the trees and that the crop will be practically a failure, whereas it was thought it would be excellent. The dry weather is just beginning to show its effects and the nuts have no meat to them and are dropping off. On the Colorado river conditions are reported not so bad, but the creeks did not have water enough to mature the pecans.

Must Answer Serious Charge.

Clarksville, Tex., Sept. 20.—Perry Johnson, a negro, was brought here from Manchester, in the river section, and turned over to the jail authorities on a charge of murder. He is charged with having shot and killed his father and afterwards attempting to take the lives of two other relatives.

Pronounced Untrue.

Paris, Sept. 20.—Reports that Germany has offered France a free hand in Morocco in return for the recognition of the German sphere of influence are pronounced officially to be without foundation.

ser & Co., and entered upon his duties
Monday morning. Mr. Lawrence is to be
congratulated upon securing employment
with this company, and also the firm has
secured one of the best salesmen in Texas.
Mr. Lawrence will be found in the gents
furnishing department of this large store.
—Ballinger Daily Ledger.

MUSICAL RALLY HELD.

The musical rally at Carnegie Hall last
night, while not as largely attended by
the public as might have been ex-
pected, lacked nothing in the way of en-
thusiasm and was productive of splendid
results. The meeting was under the aus-
pices of the Ladies' Choral Club, with
Dr. Butler presiding. Splendid addresses
were made by Mr. Lillebridge, Mr. Law
and Prof. J. H. Allen. The discussion
ranged from the scientific to the practical,
taking full scope of Bryan's present mus-
ical needs under the latter head. Mrs. W.
S. Wilson, president of the Choral Club,
gave a resume of its successful work the
past two years, and outlined some plans
for the coming year. The club will have
associate members, both ladies and gen-
tlemen, who will assist in promoting public
recitals, but will not be required to pay
dues or fines or attend rehearsals. Beau-
tiful and well rendered vocal numbers by
Mrs. Lillebridge, Miss Peale and Miss
Willie Rogers gave much pleasure.

WARNING TO HUNTERS

Mr. H. D. Wilson of this city, appoint-
ed game commissioner for Brazos county,
requests the Eagle to state that he has au-
thority to arrest without a warrant any per-
son or persons violating the game law, and
that from this date the law will be strictly
enforced.

MAY GO TO CONGRESS.

President Likely to Let Senate
and House Act.

Oklahoma City, Sept. 20.—Further returns from the election confirm the first report of the adoption of the constitution, ratification of the prohibition article of the constitution, election of the full Democratic state ticket and an overwhelming Democratic majority in the legislature of four Democratic congressmen and one Republican.

The state canvassing board, under the election ordinance drawn by the constitutional convention, must begin the canvassing of returns Oct. 8. The enabling act requires that Chief Justice Burford of Oklahoma, Chief Justice Clayton of Indian Territory and the territorial secretary, Mr. Wilson, of Oklahoma shall canvass the returns on the constitution and state wide prohibition, and that the two judges named and Governor Frantz shall certify the results to President Roosevelt, to gether with a copy of the constitution and all ordinances.

No time limit is set within which these must be sent to President Roosevelt, but they probably will not reach him before Nov. 15.

It is generally believed here that President Roosevelt will refer the constitution to congress on the supposition that congress had no authority to delegate its power to admit states to President Roosevelt or any other person. The president has twenty days after receiving the constitution to pass upon it.

TO FILE CONTEST.

President May Be Asked Not to Issue Proclamation.

Oklahoma City, Sept. 20.—Chairman Hunter of the Republican committee insists Frantz got more votes than Haskell. He makes sweeping charges of election irregularities, ballot mutilation, intimidation of voters and partisan appointment of county election boards. The committee may ask the president not to issue a proclamation declaring Oklahoma a state. The charges are almost entirely confined to Indian Territory counties, where Mr. Hunter alleges, the county election boards named by the constitutional convention, disregarded the Republican county organizations' recommendation in appointment of county election officers.

"We were entitled under the law to name our officers," said Mr. Hunter Thursday night, "but in many instances a man was appointed other than the one we named."

Marshall county, the committee charges, is, on a fair count, for Frantz. In this county the organization is alleged to have been ignored.

In Hughes county the charge is of illegal voting and destruction of ballots.

In one precinct in Leflore county Chairman Hunter charges that 230 votes cast by negroes were thrown out.

"The fraud charges so generally circulated by Republicans are absurd," said Chairman Thompson of the Democratic committee Thursday night. "We have won this election by an overwhelming majority, and won it honestly. We cautioned all committee men in detail to guard against practices which might be construed as irregular. A charge at this time is but the passing of political hopes."

STRIKE SETTLEMENT.

Reports Relative to the Matter Were In Circulation.

New York, Sept. 20.—Conflicting reports regarding the possibility of an early settlement of the telegraphers strike were current Thursday night. From one official source it was given out that direct negotiations had been opened up with President Roosevelt seeking his aid to bring about arbitration. According to this authority Percy Thomas, deputy vice president of the national union, and Daniel L. Russell, former president of the New York local, had a two hours' talk with the president at the latter's home in Oyster Bay on Wednesday last. This could not be confirmed, but Mr. Russell said:

"The most important action taken in connection with the strike was made Wednesday, and we are satisfied that it will bring about a speedy and satisfactory settlement."

Mr. Russell, who is also chairman of the local strike committee, added that word had reached him late Thursday that two members of the union had gone to Washington to see Labor Commissioner Neill and to express to the commissioner dissatisfaction with the conduct of the strike. If the report was true, Mr. Russell said, the men who had gone to Washington were not authorized to speak for the strikers, and that their action was unwarranted. No dissension, he said, existed in the New York union.

ENTRANCE WATCHED.

Considerable Anxiety Was Felt Regarding Possible Demonstration.

Rome, Sept. 20.—Friday being the thirty-seventh anniversary of the occupation of Rome by Italian troops and the fall of the temporal powers of the papacy armed men were detailed to watch all entrances to the Vatican and patrol the garden and court grounds. Cardinal Merry del Val, papal secretary of state, was at Castle Gandolfo in frequent telephonic communication with the Vatican informing the pope of the situation in various parts of Italy.

Fist Fighting Charged.

Manilla, Sept. 20.—Captain James R. Lindsay and Henry S. Wygant, both of the Thirtieth Infantry, have been arrested by order of Colonel Loughborough, their commanding officer, on charge of engaging in a fist fight aboard the army transport Logau.

GRANT HAS FAITH.

Army Gunners Able to Cope With Hostile Warships.

New York, Sept. 20.—Even if the navy should be engaged elsewhere, New Yorkers need have no fear of their residences being destroyed in case of an attack by warships of a hostile country, according to Major General Frederick D. Grant, commanding the department of the east. While the general declines to make any comparison between the work of navy

FREDERICK D. GRANT.

and army gunners, he did say this: "I am convinced the gunners in the forts in any department can shoot so well they can put warships out of action fully as fast as they can come up against them."

Considerable discussion has been entered into between army and navy men over the quality of marksmanship displayed in each branch of the service. General Grant said he was glad the navy gunners are such good marks men, but army marksmanship has always been one of his hobbies.

TRAMPS TROUBLESOME.

New York Central Has Adopted Forceful Tactics.

New York, Sept. 20.—A notable effect of the approach of cold weather is the exodus of tramps. Park benches are being deserted and the railroads will soon be obliged to deal with the "hobo" problem. Roads running out of New York have seconded the decision of the conference of railway boards at Minneapolis that the tramp evil is the most serious railroad problem to-day and they have referred the matter to the respective chiefs of police. These chiefs, therefore, will gather at this city in a few days to discuss ways and means of meeting the situation.

The New York Central has made a beginning of dealing with the tramp pest by stationing 100 men of strength and tried courage on the main line between here and Albany to keep tramps from boarding trains and committing depredations. Youths are sworn in as special officers and empowered to arraign prisoners as vagrants. The Central estimates its losses are \$20,000 yearly in freight stolen or destroyed by tramps in the Eleventh avenue yards.

PLANS IMPROVEMENTS.

Texas and Pacific May Put In Extensive Terminals.

New Orleans, Sept. 20.—In railway circles it is reported that the Texas and Pacific Railway company is to spend \$4,000,000 in improving its New Orleans freight and passenger terminals soon in order to put the latter in a condition to handle the business reaching or leaving New Orleans over the Gould lines in an adequate manner. The work on the additional terminals, it was stated, will begin in time to have them available for use when the Gould lines inaugurate their extended service to and from New Orleans in connection with the low grade New Orleans-St. Louis line, which the Missouri Pacific and Texas and Pacific are now building. Superintendent Paul said he knew nothing of the reported improvement.

WHITE LAID LOW.

Chased People Into Their Homes and Cleared Saloons of Patrons.

Collinsville, Ill., Sept. 20.—After running rampant through the streets here, chasing the people into their homes at the point of a revolver and clearing saloons of patrons, George White, a negro, was shot and instantly killed by Deputy Sheriff Will Blake. White owned a saloon in the outskirts. He appeared on the streets with a revolver, and after terrorizing the town he returned to his saloon, barricaded the doors and refused to submit to arrest.

Deputy Blake broken down the door and shot White through the head. White had long been considered a dangerous character.

Shot and Killed.

Hobart, Okla., Sept. 20.—Near Stokes, this county, Elmer Emmons was shot and killed. Walter Reed was arrested.

J. Franklin Fort Nominated.

Trenton, N. J., Sept. 20.—Republican state convention nominated Supreme Court Justice Fort for governor.

On Peace Footing.

Washington, Sept. 20.—Honduras is now on a peace footing.

SAID TO BE STANDARD.

Corsicana Refining Company Alleged Thus Operating.

New York, Sept. 20.—W. H. Tilford, treasurer of the Standard Oil company, was questioned by Frank B. Kellogg, who is conducting the Federal suit against the oil combine in an effort to glean further facts and figures concerning the development of the Standard Oil trust and its subsequent liquidation into the present Standard Oil Company of New Jersey.

Mr. Tilford related the various positions he had held in the subsidiary companies. He had been president of the Standard Oil Company of Indiana from 1889 to 1899; president of the Standard Oil Company of Iowa from 1885 to the spring of this year, and was president of the Union Tank line in 1891.

"Now, can you give us a list of the officers and directors of these subsidiary companies in the trust period and in the liquidating period?"

"I do not think I can," answered the witness.

Mr. Tilford admitted that during the liquidation of the trust there was no change in the real management of the companies.

Mr. Tilford was asked if he knew H. C. Folger and C. M. Payne. He replied that he did.

"Do you know of the Corsicana Oil Refining Company of Texas?"

"I have heard of it," replied Mr. Tilford.

"Do you know that H. C. Folger and C. M. Payne own the Corsicana Refining company?"

"I do not," replied Mr. Tilford.

"Do you know if the Standard Oil Company of New Jersey obtained oil from the Corsicana company?"

"I do not know," answered Mr. Tilford.

"Did you ever hear the Corsicana company discussed in the board of directors of the Standard Oil Company of New Jersey or New York?"

"I did not."

"Did you know that the Waters-Pierce Oil company was ousted from Texas?"

"Yes."

"Did you know that no company owned by the Standard Oil company is permitted to do business in the state of Texas?"

"I don't know," replied Mr. Tilford.

"Don't you know that the Corsicana company is operated in Texas under the names of H. C. Folger and C. M. Payne because the state will not permit the Standard Oil company to do business there?"

"I do not," answered Mr. Tilford.

"Mr. Folger and Mr. Payne are quite prominent office holders in the Standard Oil company are they not?" asked Mr. Kellogg.

"Yes, they are," replied the witness.

"It is not an unusual thing for officers of the Standard Oil company to control a competing company?" asked Mr. Kellogg.

Mr. Milburn interposed and said that he did not recognize that the Corsicana company was a competing company.

Mr. Tilford was closely pressed by Mr. Kellogg as to whether the Standard Oil Company of New Jersey had any oil interests in Texas and received any dividends from any companies operating there.

Mr. Tilford said that to his knowledge the Standard did not. He did not know about the Manhattan Oil Company of Ohio.

Mr. Tilford knew both B. C. Benedict and Anthony M. Brady, who had been interested in the Manhattan company.

MYSTERIOUS DEATH.

Baggage man's Body Stiff and Chir Bitten by Rats.

Commerce, Tex., Sept. 20.—The body of C. A. McAdams, night baggage man at the Cotton Belt depot, was found stiff. There were no marks of violence except a cut and bruise about one eye. The electric light wire was pulled from its fastenings on the ceiling. The chin appeared bitten by rats. A widow and four children are left.

OLD SCALE SELECTED.

Some Concessions Made as to Wage Payments and Wharf Rules.

Galveston, Sept. 20.—The strike of the Southern Pacific dockworkers has been settled. The men accepted the old wage scale. Some concessions as to method of payment were made by the company and changes desired in wharf rules made. This result is satisfactory to the leaders of Galveston, as they did not desire to lose about 1,000 white citizens, whose places were liable to be filled by negroes.

DONE IN DAYLIGHT.

Negro Severs Finger of White Man and Secures Fifteen Dollars.

Fort Worth, Sept. 20.—Robert Allen, an aged man, says that while walking along the Denver road a negro jumped from behind some lumber, cut off one of his fingers with a knife and robbed him of fifteen dollars.

Soon Tired of Bride.

Marlin, Tex., Sept. 21.—A negro who had been married about ten days was convicted of abandoning his wife. He was given one day in jail and court costs, amounting to \$23, assessed against him.
